

THE APP STORE FOR ONLINE CASINO

Your gateway to monetizing your games in iGaming

FIREBALL IGNITES THE IGAMING REVOLUTION

The online casino industry, also known as 'remote gaming' or 'igaming', is a fast developing global phenomenon that keeps growing as more markets open up their territories to online casinos.

.....

ONLINE CASINOS

Hungry for fresh game content to increase player acquisition and retention

GAME STUDIOS

Eager to explore the casino world to monetize their creations and IPs

PLAYERS

Have lots of possibilities and options, but novelty and localization are key to retention

WHERE FIREBALL HEATS THINGS UP

What all 3 parts of this equation need to meet is a *Remote Gaming Server (RGS)*, which is the backend system that hosts online casino games, manages their logic, player authentication, and transactions, and handles mathematical models and random number generation according to local regulations.

THE CHALLENGES OF LAUNCHING ONLINE CASINO GAMES

For game studios, launching a game can be harder than making one.

OPERATOR INTEGRATIONS

Every new integration is unique, complex, and may cause compatibility issues.

REGULATORY HEADACHES

Compliance is complex, time-consuming, and expensive.

EXPENSIVE OVERHEADS

Many open RGSs charge a percentage of Gross Gaming Revenue (GGR).

BILLING NIGHTMARES

Handling billing for your game studio is a huge workload.

TECH OVERHEAD

Maintaining own RGS drains time & money.

FIREBALL SIMPLIFIES IGAMING FOR GAME STUDIOS

Fireball is the fastest way to get your games live on online casinos.

.....

EVERYTHING CLOUD WORKFLOW

Build in the cloud; no local setup is ever needed.

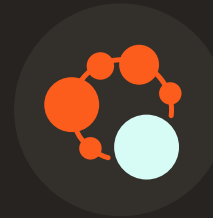

INSTANT OPERATOR ACCESS

Deploy games across multiple operators and aggregators effortlessly.

RELIABLE MONTHLY PAYOUTS

Fireball collects all payments on your behalf and pays out regularly, every month.

SCALABLE AND COST-EFFECTIVE

No GGR fees. Pay-as-you-use only based on bet volume.

BUILT-IN COMPLIANCE

Certifications, change management and required reporting made easy.

ONE DEPLOYMENT, GLOBAL REACH

From idea to live game in just three steps

1

DEVELOP IN THE CLOUD

Build your game directly in Fireball's cloud environment with seamless version control.

2

LAUNCH WITH OPERATORS

Fireball automates compliance, certifications, and integration across multiple operators.

3

MAKE PROFITS & TRACK PERFORMANCE

Set custom game fees, get real-time analytics, manage sessions, and receive monthly payouts automatically.

WHY DO STUDIOS LOVE FIREBALL?

Running your own RGS is no walk in the park. Why would you choose Fireball over a homemade option?

SAVE TIME

Rapid cloud development and quick deployments.

KEEP MORE PROFITS

Maintaining your own RGS can be hugely expensive.

NO INTEGRATION BARRIERS

Deploy once, distribute everywhere.

SECURITY, RELIABILITY, PERFORMANCE AND COMPLIANCE

Enjoy the experience of more than 19 years in the industry.

READY TO LAUNCH YOUR GAME?
